

Invitation to a one-day Symposium

On

**Enhanced Regional integration through inclusive
Equivalency Teaching Programme and Master/ PhD Students Exchange**

CEALT aims to provide the Republic of Djibouti, as well as the countries of the region, with highly competent and innovative technicians, specialists, engineers and executives in the strategic development sectors of Africa such as Logistics, Transport, Innovation, and Entrepreneurship. CEALT offers high-quality engineering training which responds to the real needs identified in promising socio-economic sectors such as transport systems, electrical and energy engineering (GEE), civil engineering (GC), and Data Sciences (MDS). The center has a target to promote research within the University of Djibouti, and regional universities, through the production of high-level scientific research articles.

DATE : Tuesday, May 11, 2021

VENUE: College of Engineering, University of Djibouti

TIME: 10.00 am
